Subject : Extension request fort Chemistry assignment.

Respected Sir,

Dear Professor [Last Name],

I hope you're doing well.

I'm reaching out to ask if I could have a short extension on the chemistry assignment 2, currently due on Tuesday 31st March . Over the past few days, I've been dealing with viral fever which Is causing headache and stomach pain , which has made it difficult for me to give the assignment the time and focus it deserves.

I want to make sure I submit work that reflects my best effort, so I would really appreciate an extension of 2 – 3 days. I'll make sure to have it completed and submitted within that timeframe.

I apologize for any inconvenience this may cause, and I appreciate your understanding.

Kind regards,
Jeet Biswas
